

The aim of AICE Marine Science is to provide a worthwhile education experience, through well designed Marine Science studies that promote awareness of scientific theories, provides the stimulation of candidates' interests, and aides the development of skills in order to understand the importance of the study and practice of sciences and care for the global environment.

The summer assignment for AICE marine will remain reading World Without Fish by Mark Kurlansky

You should prepare for a Socratic seminar with questions and citations to back up your opinion of this great summer read!

Each student should have a minimum of 5 questions. (Anticipate alternating points of view) Yes it is true minimum requirements will only get you a C

MAKES SOME NOTES WITH PAGE NUMBERS FOR REFERANCE.

DO NOT wait until the last minute especially if you are planning to check it out from the library.

ENJOY!!!!

Also I check binders. Get one and be prepared to use it.
