

Welcome to Pre-Aice Chemistry. I look forward to working with you in the upcoming year. It is imperative that you complete your summer work before your first class. All summer work is due the first day of class, **No late work is accepted**. On the second day of class you will be tested on your summer work. If you need any assistance over the summer please email me at tracylk@leeschools.net I will check my email weekly.

First a little information about the course. Please look over the syllabus so you see what the expectations of the year are by looking at syllabus for 2019 at the following link

<http://www.cie.org.uk/programmes-and-qualifications/cambridge-igcse-chemistry-0620/>

Complete the attached reading and questions. The questions should be written out on the left side of your paper like Cornell notes and then answered in bullet style notes showing all work where necessary. This work needs to be handed in on day 1 of class.
